About us

Our extension program is offered for those students who seek the next level in elite classical coaching and dance tuition.

Why enter The Dance Academy's intensive training from such a young age?

What makes The Dance Academy Caloundra such a unique opportunity, is that our program is created for passionate dancers aspiring to a career in classical dance from as early as 11 years. By attending this "middle school" it bridges that gap that exists between the day/afternoon schools and senior full-time training institutions, which exist in the capital cities.

During these formative years, it is imperative that gifted students, who aspire to a career in Classical Ballet, obtain a strong classical technique, supported by associated practical and theoretical subjects, which will heighten their level of accomplishment and success in future years.

Please contact us if you need to arrange a payment plan.

Additional Costs

In Term 4 you will receive an invoice for costume hire for the end of year concert. This is something we do a little differently, instead of purchasing costumes we purchase them and hire them to you making it much more affordable.

Withdrawal From Classes

Like all educational institutions refunds are not given for missed classes. 6 weeks notice in writing to the Artistic Director is required if a student is to be withdrawn from The Dance Academy Classical Extension Program, otherwise a term's fees in lieu of notice will be charged.

Why Choose The Dance Academy

Once involved in such an intensive training program, students will begin to blossom and their progress will be fast tracked, along with like-minded classmates, who share the same passion and goals.

By approximately 17 years of age, the dancer will be very well informed and educated, as to the prospect of their "true" career path, instead of embarking on a nervous, uneducated journey, not knowing what to expect at full-time schools.

This can often lead to unsettledness with both their dance training and their education in those critical years, as many of them, are learning to adapt to living away from home and the whole introduction of such intensive training.
